Stainless Steel Keyboard

With integrated trackball

Feature

Protection Level P65 or NEMA 4X

Dust proof and waterproof

Vandal resistance

Lifespan : >5 years

Interface : PS2 & USB available

Silicon switching element

CL-KMY299

This reliable keyboard is ideal for use in modern internet terminals or in outdoor areas with dangers of vandalism.

This vandal resistant keyboard has stainless steel keys with a travel of 3 mm that stand out of the front plate.

This makes the keyboard simple to use as a standard PC keyboard.

The keyboard is available as front or back panel mounted version.
This robust stainless steel keyboard is especially designed for kiosk and public environment. The keycaps are made of stainless steel, non removable and therefore vandal resistant. It comes with a PS/2 or USB interface.
